

Welcome to my class!! This year we have revamped the curriculum for technology and engineering. Technology no longer refers to computers, but to the Tobin or the Sagamore Bridge, or the Superman at Six Flags! We will learn more about how you can solve real world problems and help make this world a better place.

## Assessment Slices

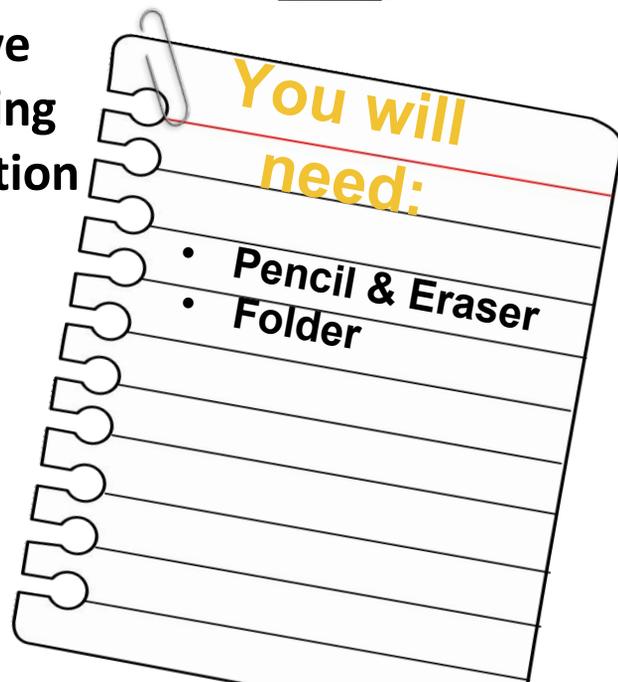

## Class Rules:

- Be on Time
- Be prepared
- Be polite & Kind
- Be ready to think
- Be open to new ideas
- Be willing to take risks
- Be ready to make mistakes

## Innovative Engineering Presentation

# Policies

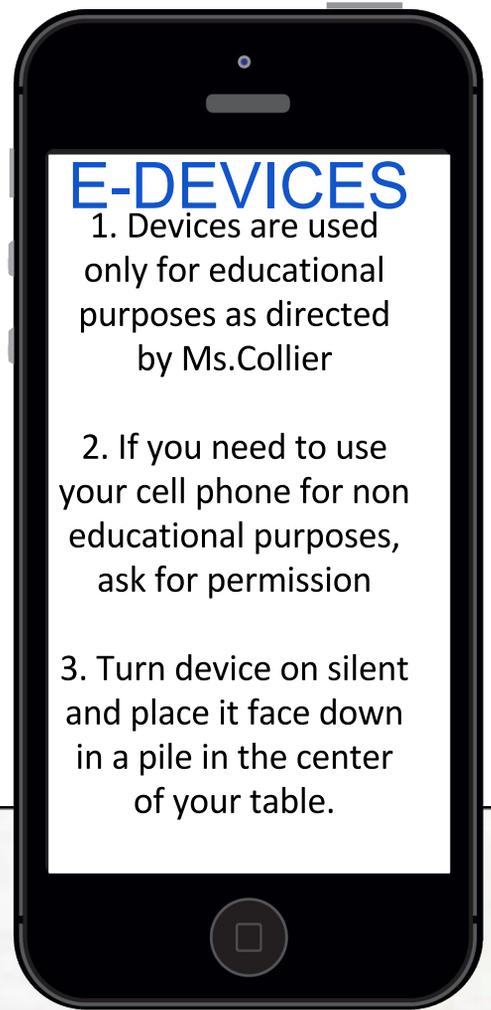

Participation is expected from everyone because it makes everyone's learning more meaningful and exciting. There are many ways in which you can participate and I understand that everyone participates differently.

Do what is asked of you without arguing or complaining. The first time.

Bring a pencil. Bring a pencil. Did I mention to bring a pencil?

## Homework

Because this is a specials class, it means that you the student will not have as much homework as you do in, say, science class. There may be the occasional class where I ask you to do some research so we can get back to having fun in class. When this is asked of you, it is required. You may be unable to complete the project until the research is done.

# Topics Covered

## 6th Grade

- ~What is Technology?
- ~What is engineering?
- ~Measuring and Scale
- ~Orthographic Design
- ~Symbols
- ~Tools/Materials
- ~Safety
- ~Intro to Manufacturing
- ~Intro to EDP

## GRADING POLICIES

Grading will utilize the E (excellent), S (satisfactory), and U (unsatisfactory) system. Students grading will be determined by the listed assessment slices on page 1 as well as teacher observations, projects and activities with a focus on participation, observation and resilience. A student earning an E grade will be one who exceeds the minimum requirements and charts highly according to the teach engineering grading rubrics.

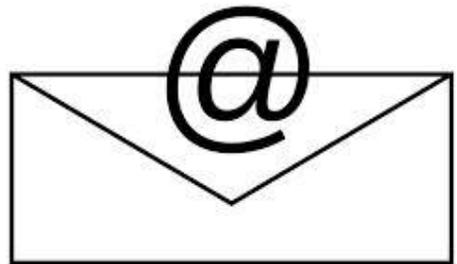

# R E M I N D 101

Technology never ceases to amaze me! I know life can get a bit hectic when kids start school and deadlines can become inundating. Well, I've been introduced to a text reminder application that will allow me to periodically send out classroom and school reminders via text message to help take the burden of remembering off of you. To participate in receiving text message reminders, simply text 81010 with the message @pwscience. Rest assured that you will not receive advertisement texts and your phone number will remain private. You may choose to opt out at anytime by messaging 'stop' to the above number.

It is my hope that this will help strengthen the home-school connection. Please do not hesitate to contact me if you have any questions.

## Contact Info:

My email address is  
laracollier@quincypublicschools.org.  
Please send me your email address  
as well as your parent/guardian's.

I'm really looking forward to our semester together!
