

# The PARCC Field Test

*What can my child expect?*

PARCC is a computer-based test (with a paper-and-pencil option) that will assess the state's new academic learning standards.

A field test lets schools and students experience PARCC in a low-stakes environment. If selected for PARCC, your child will take an English language arts or mathematics test. Your child will not receive a score or grade based on his/her performance on the field test.
